

# Green Lizard, Wrong

Save a little breath  
We got a long way ahead  
Lonely and confused  
But with nothing left to lose

You're were never there for me  
They were always in between  
Running circles round me  
And I was never there for you  
It broke our trust in two  
Someone else was aiming  
To prove me wrong, wrong

Shattered on the floor  
Can't feel it anymore, ohh  
I was never able to  
Absorb what's left of you  
(Find myself in lost behaviour)

You're were never there for me  
They were always in between  
Running circles round me  
And I was never there for you  
It broke our trust in two  
Someone else was aiming

To prove me wrong, wrong

Find myself in lost behaviour, strange behaviour, mis behaviour  
Find myself in lost behaviour, strange behaviour, mis behaviour

You're were never there for me  
They were always in between  
In between  
runnnng circles round me  
To prove me wrong, wrong
