

# Green River, By Her Own Hand (Live)

She cut her face in the mirror last night  
Trying to find another side  
She says she cannot stand this life  
She says she cannot stand her life  
I wanna tell it her it'll be all right  
But I love her too much to lie

She says she wants any way out  
You know she's lookin' for any way out  
She says she cannot find it anywhere  
She says she cannot find it anywhere
