

# Green River, Rehab Doll

Rehab doll's got a bug that bites  
She picked it up in a shared-blood rite  
Take one down, pass it around  
Take one down, pass it around  
Take as many down with you as you can

The river in the city gets pumped with sewage  
The river in the city runs brown  
The river in the city gets pumped with sewage  
Rehab doll says she craves a fix

Rehab doll's in for quite a kick  
Ten to one says it won't stick

Rehab doll stays up all night  
Shakin' shakin' shakin' she don't feel quite right

We all fall down
