

Green River, Smiling And Dyin'

Only you make the grey skies black...
So why do I keep coming back?
Misery loves company, baby
That's why I love you
Going down to your kill ya got me
Turning blue

Judge a man by the company he keeps
My love, she's a party in Hell
Smilin' & dyin' all night long
My company don't keep so well

Only you make the grey skies black
Only you keep me coming back
