Greg Raposo, Look For Me

I'm looking for someone
but not just anybody
I've been around, I've had my fun
now it's time to fall in love
I wanna find a smile;
A smile to kiss
Someone to hug and hold hands with

(Chorus)
Cause I've been keeping my pockets
warm for too long
I wanna hold someones hand
To whom I belong
To think about when I hear a love song
Hang up the phone and say I love you
Stay up all night thinking about you

I wanna hold someone in my arms
Hold them so tight... forever
Standing there would be just like heaven
Cause we're together
Then I'd sing her a song staring
right into her eyes
A song just for her
A song that I wrote for her

(Chorus)
Cause I've been keeping my pockets
warm for too long
I wanna hold someones hand
To whom I belong
To think about when I hear a love song
Hang up the phone and say I love you
Stay up all night thinking about you

Cuz I'm looking for love, but it's so hard to find
My heart open, so come and step inside
Looking for love but I must be blind
So girl, Start looking for me
Look for me

I hate being alone
Staring at the stars on my own
And I need a girl
A girl to tell me she really cares
And if she needs someone I will always be there

(Chorus 2x)
Cause I've been keeping my pockets
warm for too long
I wanna hold someones hand
To whom I belong
To think about when I hear a love song
Hang up the phone and say I love you
Stay up all night thinking about you

Cause I've been keeping my pockets
warm for to long
I wanna hold someones hand
To whom i belong
To think about when I hear a love song
Hang up the phone and say i love you
Stay up all night thinking about you
