

Greg Raposo, We're In Love

Distance can't stand in our way
Cuz I'll just miss you and love you more each day
And as I feel you so close in my heart
It makes it impossible for us to be apart

I close my eyes and you're by my side
Staring at me with those beautiful eyes
I can always be with you in my mind

(Chorus)
Nothing can stand in our way
Cuz we're in love
I'm smiling more everyday
Cuz we're in love
Hold my heart it belongs to you
Hold it forever I will be with you
We're in love

And as I stare out my window at stars in the sky
You're so far away but I'm still staring
At the same sparkle of your eyes
As we came to be you and me
You're all that I can see
All that I want and all that I need

(Chorus)

I thank god I found you
I'd give anything to be around you
In my arms I'd never let you go
Oh and every night away in my dreams
We're together and I'm holding you tight

I close my eyes and you're by my side
Staring at me with those beautiful eyes
I can always be with you in my mind

(Chorus)
