

Gregg Alexander, Ev'ry Now And Then

He man we're walkin' down to Harlem tonite
We're gonna get us some women...
There's times when you're down--And there's times when you're up
And theres times when you had enough of sipping--and you wanna just drink from the cup
And I know you like me baby--So stick around a while
You been hangin' on my arm like I'm going outta style
So come here little darling--And let me hold your, uh, hand
I will be your Abraham and take you to the promised land
Ev'ry now and then I lose my head--Ev'ry now and then I lose my heart
Ev'ry now and then I let go cuz the whole orld's fallin' apart
But f I have you, who cares if the whole worlds fallin' apart? Hey--I don't
There's times when youre in--And theres times when you fall out
Know what I really mean?
And there's times when I don't now if i'm in someone's hair
But then again... I don't care
Ev'ry now and then I lose my head--Ev'ry now and then I lose my heart
Ev'ry now and then I let go cuz the whole worl's fallin' apart
But if i have you, who cares if the whole world's fallin' apart? Hey, I don't
