

# Gregory And The Hawk, Avalanche! Oh, Avalanche!

Avalanche!  
Oh, avalanche!  
You are the number one  
natural disaster in Switzerland.

The Swiss put up barriers to keep you out  
and build covered roadways to save themselves,  
but it's no use; you always kill  
at least a few skiers a year,  
just to remind them to be fearful.  
At least a few skiers a year.

A few innocent lives a year.

Avalanche!  
Oh, avalanche!
