

Gremlin (US), Whiskey Over Ice

I'm sippin whiskey over ice
Cause this Liquor is my vice/
She's always telling me to quit
I say don't give me your advice/
Then I take a shot of rum
Because I'm just livin life/
But sometimes I get so numb
I don't know if I'm alive/
Tell me what the fuck have I become
This Addiction shit is running in my blood/
It's reason why I'm pushing you away
Please remember me for who I was/
& it's true that this drink keeps me down & depressed/
on the other hand helps me out when I'm stressed/
I worry bout my bro cause he's out doing meth/
& get lost in mistakes, I'm not proud of me yet/
I'm so flooded with thoughts I could drown in the depths/
Can someone help me to get out of this mess?/
Cause I really feel like I'm close to the edge/
Im talking to God looking over the ledge/ sayin

I want you to take me away
I don't wanna be here anymore
I want you to take me away
I don't wanna be sure anymore
I want you to take me away
I don't wanna be here anymore
Take me away, way, way

Lately I been drinkin when I drive
With memories repeating in my mind/
All that I can think about is my grandpa
I wish that he was still alive/
Honestly I'm scared of growing old
But I wonder how my story will be told/
Will anybody say I cared about them?
Or only cared for the glory and the gold?/
And how every night they saw me at the bar
& Some times balling in my car/
& thought that I was talking to myself
But the whole time was talking to the stars/
And asking for strength and some peace in my mind/
Cause I'm really fallin to pieces this time/
No one is callin to see if I'm fine/
I'm fuckin sick of these demons of mine/
I wish that I could just leave em behind/
But I think that we are to deep intertwined/
Cause I really feel like I'm close to the edge/
Im talking to God looking over the ledge/ sayin

I want you to take me away
I don't wanna be here anymore
I want you to take me away
I don't wanna be sure anymore
I want you to take me away
I don't wanna be here anymore
Take me away, way, way
