

Grendel, Human Saviour

I now own your fucking breathing - I now own your fucking thoughts
I will never hesitate - To create your feeble fate
Bow down - To all your fears and all your anxiety
Bow down - To all your fears and all your faith in me
Kneel down upon your knees - Now open wide and let me in

Worship your evil - Worship your god
Worship your leader - Worship your lord
Worship your evil - Worship your god
Worship your leader - Worship your lord

Bow down - To all your fears and all your anxiety
Bow down - To all your fears and all your faith in me
Kneel down upon your knees - Now open wide and let me in
I now own your fucking breathing - I now own your fucking thoughts
I will never hesitate - To create your feeble fate
Bow down - To all your fears and all your anxiety
Bow down - To all your fears and all your faith in me
Kneel down upon your knees - Now open wide and let me in
