

# Grendel, Void Malign

Fast spreading disease  
Wasting away for a meaningless deathkey  
Slow dawning, minds sleep  
Hypnotized drones of an imminent decree

We bury our last hopes with ease  
We're all a part of this volentry machine  
No running, no sanctuary  
There is no feeling from this imminent decree

Over the borders, across the lines  
We are bridging this void malign  
The data speaks, we make our time  
We are bridging this void malign

Infection, increased  
Wasting away for a meaningless deathkey  
Slow dawning, minds sleep  
Hypnotized drones of an imminent decree

We bury our last hopes with ease  
We're all a part of this violentry machine  
No running, no sanctuary  
There is no feeling from this imminent decree

Over the borders, across the lines  
We are bridging this void malign  
The data speaks, we make our time  
We are bridging this void malign
