

Gretchen, P.L.F.

(verse 1)

They say times are tough and so is he
Sometimes it's rough just to be alive
They say he never had opportunity
To prove his worth or just to be a man
So we'll just give him one more chance
We'll just give him one more chance
We'll just give him one more chance
And they say:

(chorus)

Poor little fellow, they say
Poor little man, they say
Poor little fellow, they say
Poor little man
But I don't think so
Cause' you've got something,
Something you'll never know, OH,OH

(verse 2)

I remember, a friend of mine, like a brother
But you always fell behind
Well I grew up and I watched you try
I held out my hand time after time
But then you kicked me in the face
You just kicked me in the face
You just kicked me in the face
And they say:

(chorus)

(bridge)

Hey Mr. Nothing your calling is waiting
But your head's in the clouds and you're fading away
Away, Away

(verse 3)

I watched you find the truth, then you let it go
Then you picked it up
Whichever wind that blows
You're a Wanna Be of all you see
But they laugh at you
You're a walking comedy
And then you kicked me in the face
You just kicked me in the face
Go on and kick me in the face
And they say:

(chorus)
