

# Griffin House, Waste Another Day

It happens on the beach.  
When Im drunk again and I dont want to be.  
It happens on the beach when Im drunk again  
And I dont want to be.  
Youre the morning after we  
The morning after you and I gave in  
To our sin

And Ill stay with you my love, until I waste away.  
Yes Ill stay with you my love, until I waste away.

Waste another day,  
Waste another day with me my love.  
Waste another day,  
Waste another day with me my love.

When I caught your glance, I saw something in you  
That I longed to heal.

And Ill stay with you my love, until I waste away.  
Yes Ill stay with you my love until I waste away.

Battles on the gray, her words are falling out like endless rain on the sea.  
Battles on the gray, her words are falling out like endless rain on the sea.  
It happens on the beach when Im drunk again and I dont want to be.

But Ill stay with you my love until I waste away.  
Yes Ill stay with you my love until I waste away.

It happens everyday.  
Is it said enough?
