

GrimSkunk, Inner Piece

Bailan, Bailan

Why don't we try to eliminate hate?

We are one people, oh mama

A planetary nation, oh mama

Sharing the abundance for the greater need

Try to put us down

To screw us in the ground

But it's not how we want to be

Try to shut us out, to lose I in a crowd

But it's not I reality

Feeling high

Why don't we live in joy and happiness

And we try to forget the rest

Living on the edge

Can't take my inner piece

Politician, industry, television, can you see

Who is in control we must break free
