

Grinspoon, More Than You Are

Were you neurotic as a child?
Did they come around and watch your style?
Did you have plans to be a star?
Did you have plans to become more than you are?
More than you are
More than you are
More than you are now
I'm more than you are
More than you are
More than you are now
Maybe rock was in your dreams
Maybe being there was far too obscene
Swing it high and swing it low
Swing it anytime where you wanna go
More than you are
More than you are
More than you are now
I'm more than you are
More than you are
More than you are now
Yeah
Alright, yeah yeah yeah
Alright
Were you neurotic as a child?
Did they come around and watch your style?
Did you have plans to be a star?
Did you have plans to become more than you are?
More than you are
More than you are
More than you are now
I'm more than you are
More than you are
More than you are now
