

Groove Armada, Remember

What you
What you see

In your time, to me
And you know that you are free
And when you can be
Don't think you only, what you see
For remember

What you see
Remember what you see
What you
Remember what you see
What you

In your time to me
And you know that you are free
And when you can be
Don't think you only what you see
For remember

What you see
What you see
What you see
What you see

Remember what you see
Remember what you see
Remember what you see
Remember what you see
