

Groove Theory, Angel

It was time
Lovin' all the girls was fine
But she came along
Young yet wise
Kinda dropped out of the skies
And blew his mind
Yes, she blew his mind
He cud not believe it
It was everything he needed
So plain 2 see that

[Chorus:]
She was some kind of
Angel, ooh
Was some kind of angel

Perfection in his eyes for the rest of his life
Cud she be his
After the first time he met her
He was already naming their kids, yeah
Somethin' like this
Is just what papa told him he should
never ever miss
Wud be so nice 2 wake up 2 her
Every morning and every night, yeah
It feels so right
And in his heart he knows that she's the 1
Who will 1 day be his wife
ohh
He cud not believe it
It was everything he needed
It was plain 2 see that

[Chorus]

He could not believe it
It was everything he needed
So plain 2 see that

[Chorus]
