

Groovie Ghoulies, If You Need Me

I feel needy.

Why don't you call me?

Said if you need me, why don't you call me?

Don't wait too long when things go wrong.

I'll be there where I belong.

Said if you want me, why don't you send for me?

Said if you want, want, want -- all you gotta do is send for me.

Don't wait too long just to pick up your phone.

I'll be there -- right there -- where I belong.

People always told me, darling, that you didn't mean me no good.

But I know deep down in my heart, I tried the very best that I could.

And one of these days, darling it won't be long, you're gonna come walking through that door.

And I know, in my mind these are the very words you're gonna say to me: I still love you.

Always thinking of you.

I still love, love, love...always thinking of you.
