

# Groundation, Each One Teach One

There was a plan held high up for the young ones  
It says, we alone must bring the fruit out of the garden  
For this is not just a sign this is our holy water,  
Well now wa da da da  
In a vision of fire I'll fight until the end

So you think you are the only one, well, well, well, well  
Who gave my father the strenght to cross the ocean  
Lord Mother come carry your flock in for the day  
Rally round, gather round, oh people in some way

Each One shall Teach One yes  
Well until we reach Jah heights oh children bless  
Each One shall Teach One yes  
Until we reach Jah heights inna future  
Each One shall Teach One yes  
Yes until we reach Jah heights oh children bless  
Each One shall Teach One yes  
Lord until we reach Jah heights inna future

In this plan is the knowledge  
Of what dwelled before man  
So know your history or you will become it  
Dear Mother come save your pickney  
From the Philistine marching in this time  
Oh Father guide them from the Babylonians

Well I man go, down by the river  
Yes and I man see, our children deliver me  
Well now I man go, down by the river  
Yes and I man see, our children deliver me

Some may say "Oh why am I here today?"  
Well if you do not know today you will tomorrow  
Finding a river flowing deep, deep from within  
Rally round, Gather round, everyone run come  
Pass It on (Extended Lyrics)
