

Groundswell, Weatherman

Who is he?
Why does he always comfort me?
He is my weatherman
And he lets me know what's wrong
Don't tell him your secrets
They haunt your burning soul
Your mind, your thoughts, your life
Turn to rain and cold yeah
Falling down is the skies
Said said, said said the weatherman (X4)
Have you had a jump (??) chance
One that brings you down
A feeling of uneasiness
It's in his mind ??? drown...
Falling down is the skies
Said said, said said the weatherman (X4)
And you will see what you mean to me (x4)
Falling down is the skies
Said said, said said the weatherman (X4)
