

Gryffin, Colors (feat. Blanke, Eyelar)

You and I
On the 405
Driving in the night
We're closer to the blue horizon

Did I die?
Because you're
Heavenlike
I'm in all the light
Your heart can radiate

When I close my eyes
I see the purple skies
Between your lips and mine
We slow down time

You make me see
Who I am
When I discover, your colors
And we could be
Free again
We see each other colors, colors
I see your colors

I see your colors

I see your colors

Cellophane sunsets
Summer rain
Blood red
Color me
You make me feel your inspiration
Never let someone
See the best for so long
Now I'm home in your arms

You make me see
Who I am
When I discover, your colors
And we could be
Free again
We see each other colors, colors
I see your colors

I see your colors
And we could be free again
Free again
We see each other colors, colors
I see your colors

I see your colors

You make me see
Who I am
When I discover, your colors
And we could be
Free again
We see each other colors, colors
I see your colors
