Gryffin, Last of Us (Ft. Rita Ora)

When you're down You think it's done The world around Makes you numb I'll be there for you I promise you

It's not the last of us No, I won't give you up Until my heart stops Baby, it's not the last of us 'Cause you're all I'm living for Even if love is war C'mon, take your best shot Baby, it's not the last of us

I will fight For your love, I would kill, I would die Even if we run out of time Baby, it's not the last of us Hold the line Let the shadows fall behind We can crash, we can light up the night Baby, it's not the last of us

Baby, it's not the last of us

When you're down You think it's done The world around Makes you numb I'll be there for you I promise you

It's not the last of us No, I won't give you up Until my heart stops Baby, it's not the last of us

I will fight For your love, I would kill, I would die Even if we run out of time Baby, it's not the last of us Hold the line Let the shadows fall behind We can crash, we can light up the night Baby, it's not the last of us

Baby, it's not the last of us Hold the line Let the shadows fall behind We can crash, we can light up the night Baby, it's not the last of us
