

Guadalajara, The Great Ape Venture

He was the schoolyard bully of the world
Even smarter than the brain
Alltime ready to pull his gun
George W. was his name

More war less education is his effort
Continuing his predecessors job
Just waiting for another war opportunity
While keeping the population scared

The dictator of the cultureless
The rocketman for the wealth
The leader of all braindead robots
He is Texas most famous cowboy

His father was a dick
And so is he
Dickness is a part of his whole family
Justified in the name of god
Another senseless war he fought
