

Guano Apes, Close to the Sun!

When we were blowing like a flame
Under covers, night and day

You took me up so high
It felt like paradise
Breathing you in, breathing you out
We fell like shooting stars
But we weren't up too far
Nowhere to go but down

It was so beautiful before the fall
I'm flying too close to the sun
It was so beautiful before the fall
I'm flying too close to the sun
I was all yours, I felt the Earth turn
Shooting so high, too fast, I got burned
It was so beautiful, we fought the fall
I'm flying too close, I'm flying too close to the sun

Oh I miss you missing me
And all the things we'd never be

You took me up so high
It felt like paradise
Breathing you in, breathing you out
We fell like shooting stars
But we weren't up too far
Nowhere to go but down

It was so beautiful before the fall
I'm flying too close to the sun
It was so beautiful before the fall
I'm flying too close to the sun
I was all yours, I felt the Earth turn
Shooting so high, too fast, I got burned
It was so beautiful, we fought the fall
I'm flying too close, I'm flying too close to the sun

It's written in my heart
I'll always remember you, remember me
Together but apart
I'll always remember you, you set me free
