

# Guano Apes, Mine All Mine

See the signs, you left behind  
I won't run into the trap, something's wrong, you're under control  
your life has so much pain  
and if water burns, (the) white bearded man, sucks out your soul  
are you afraid, when I am strong  
far's my mind, just my body that's here

You better run my darling  
it's fear  
it's now or never, nothing's real  
keep your hands away, it's mine all mine

I'm honest man, and you just laugh  
there's a fire in me, you talk too much, words won't last  
I want to cry out loud  
my spirit of life is to live with what is wrong  
going with the tide, claim to be apart  
far's your mind, it's just my body that's here

You better run my darling  
it's fear  
it's now or never, nothing's real  
keep your hands away, it's mine all mine

see the signs on the wall  
see the signs on the wall  
no way, I'm out of here  
die with all your money  
trying to reach me  
keep your hands away, it's mine all mine  
keep your hands away  
keep your hands away, it's mine all mine
