

# Guano Apes, Too Close To Leave

To be with you  
you're so sweet  
your naked body lies next to mine  
and we're here  
within touching you're skin with my eyes  
I'm a river so deep in your arms  
sharin the same heart  
within don't let me be one of your stars

cos I live all the dreams you dream  
and I see all the things you need  
(you've been down with me  
I'm to close to leave)

Enemy  
seem to be  
do you really think that you want me  
coming through  
into my heart  
touching my soul here I start  
don't talk when all words ain't enough  
act like my man  
we know life is rough  
within hold on when time seems to stop

cos I live all the dreams you dream  
and I see all the things you need  
(you've been down with me  
I'm to close to leave)  
animating the sin in me  
when I'm with you I leave reality

I let in  
I let i the sin  
I let in  
I let i the sin...  
you've been down with me  
now I'm to close to leave

cos I live all the dreams you dream  
and I see all the things you need  
(you've been down with me  
I'm to close to leave)  
animating the sin in me  
when I'm with you I leave reality
