

# Guano Apes, We Use The Pain

Could you step away, I'm a vicious girl  
could you fill the break  
we're on the right way, to swing the little axe  
it's the right day, to give up the tax

We use the pain, for our fantasy  
we need some pain to find the right way  
we love the pain and want some more of it  
control the pain, chickenhead !

Right way turning, listen we are learning  
head full of noise  
chickens got no choice  
heads are rollin  
chickenblood is stolen  
the rest of the chicken  
wants to picke-nicken

Could you feed your chicken, cause I'm hungering  
drinks and chips for free  
the muscles like Bruce Lee

We use the pain for our fantasy  
we need some pain to find the right way  
we love the pain and want some more of it  
control the pain, chickenhead

Right way turning listen we are learning ...

Painfull, the table's red  
big storm and no regret  
dark side, we use the pain  
captain, we are lost insane  
mother, we cut the dump, mother  
mother, we all, we all, we all

Right way turning, listen we are learning ...
