

# Guena LG & Amir Afargan, Back 2 Paradise (feat

I don't know when the darkness came  
Slowly took my faith away  
Enough is enough, I feel incomplete  
And it's hard to find the light alone  
All I need is a crowd, I've lost everything  
Everything we had now it's gone  
And I need only music  
And now I found tonight a little piece of Heaven saved my soul,  
And I, drive me back 2 Paradise  
Back 2 paradise Paradise  
Hidden in the sound, back 2 Paradise Paradise  
We're gonna leave it now

When your World just falls apart  
It comes the shadow in your heart  
Enough is enough, and I'm free to love  
I want to catch tomorrow's sun  
Leave the past far behind, I've lost everything  
Everything deep inside  
Don't give up, only music frees our rage  
And now I found tonight a little piece of Heaven saved my soul  
And I, drive me back 2 Paradise  
Back 2 paradise Paradise  
Hidden in the sound, back 2 Paradise Paradise  
We're gonna leave it now

Is deep within the rhythm  
Is music when I pray  
The past will be forgiven  
And I will found my way  
I know I will found my way

And now I found tonight a little piece of Heaven saved my soul  
And I, drive me back 2 Paradise  
Back 2 paradise Paradise  
Hidden in the sound, back 2 Paradise Paradise  
We're gonna leave it now
