

Gufs, Crash (Into Me)

(G. Kralj, D. Kralj)

She climbs right down onto me
Understand I'll believe in anything
And tonight you're everything
In a place I've never been
Though not equally concerned
Everything I hope you'd be
Tonight you're here with me
Days pass me by this way
Finding hope when I see a strangers face
As the night falls into place
In a place I've never been
Though not equally concerned
Everything I hope you'd be
Tonight you're here with me
Collide crash into me
Feeling myself go
Collide crash into me
Who is in control
Time slips right through my mind
Fading fast as I see the things do
And I know you've seen right through
Collide crash into me
Feeling myself go
Collide crash into me
Who is in control
Feeling myself go
Who is in control
