Guided By Voices, Mammoth Cave

Got my flashlight Two by four Necessary precaution Plants at the entrance Flies at the exit

Way down deep In the darkest hole Lost my way Lost my soul You can dig my grave In Mammoth Cave

I would of brought a sharp object, yeah But they've taken mine all away All away

I pretended I wasn't scared Something fucking stinks in here Like a sump pump in a sewer What the hell was I thinking?

Way down deep
In the darkest hole
Lost my way
Lost my soul
You can dig my grave
You can dig me a hole
In the Mammoth Cave
Mammoth Cave.
