

Guided By Voices, New You (You Can See And Believe)

Let me cut up your picture yeah,
and let me move around the parts
make a new you
I'll put your eyes back in place,
baby so you can see me
take your head out of your ass
so you can see
put your heart on your sleeve
so you can believe alright!
It's a new you!

You can see and believe
how much each of us must know
You can see and believe
how much each of us
must know you're gonna see!
You'll believe
how much each of us must know!
