

Guided By Voices, You Will Be There

Let me tell you something
I don't need you
I don't have to have anything to do with you
And if I could be real
Do you think I would even try?
And if the night would change
Do you think that I would cry?
And when the light shines down on me
And when the daylight comes
You will be there
You will be there

Don't you let me see you up there
Don't you let me catch you in the light
Don't you let me ever change
Ten million people that will never be around
Have no form of communications
I will never be there
Never be there
Never be there
