

# Gun, Higher Ground

She comes running, don't blame yourself  
Don't hurt yourself don't say it's true  
This city rains down on you rains down on you  
I don't care about money, I'll just pray for time  
There's no easy way

So if you feel like taking on the world  
That's alright  
We've got the night on our side  
We can walk that line

I'm on my way to higher ground  
Lies they build you up then bring you down

Some people just love and run  
Your time has come  
Can you hear what I'm saying for this time around  
I've made up my mind

And if your dreams come crashing to the ground  
Hide your pain  
Just start all over again  
On the other side

I'm on my way to higher ground  
Lies they build you up then bring you down  
Don't let it get you down

So as this world lies waiting let there be no sorrow tonight

I'm on my way to higher ground  
(We can walk that line)  
(We can pray for time)  
Lies they build you up then bring you down  
(We can walk that line)  
(So let's pray for time)  
I can't ever lose this thing I've found  
(We can walk that line)  
(I've made up my mind)  
I'm on my way to higher ground  
(Higher ground)

Higher ground  
Higher ground

The time has come to turn it round  
They can't touch you now  
The time has come to turn it round  
They can't touch you now

Higher ground  
The time has come to turn it round  
Higher ground  
They can't touch you now
