

# Gunna, Martian

(Plug)

Flew back from space like a motherfuckin' martian  
Streets are at war, gotta sleep with that Carbon  
I crack a half of that lean, shit be icy  
Lambo' doors up when I pull up and park it  
Investing in drugs, controlling the market  
Showing no love, fuck these niggas, I'm heartless  
I'ma make sure you proceeding with caution  
This ain't a M, ain't no reason to bargain

Hey, uh  
Gotta stay focused, I knew I was chosen  
This lotto a cutthroat, I don't wanna smoke it  
Microwave rising, they thought I was hopeless  
Stopped doing deposits, these bank tellers nosy  
Won't recognize you, you iced out your Rollie  
I fronted you, you forgot that you owe me (Plug!)  
Pushing me to the edge  
I be healing the pain with this red  
Spent like twenty-three racks on these threads  
I got twenty hoes that could give head  
I'm a dinosaur, rock the T-Rex  
Pop a wheelie, Meek Milly, I flex  
I'm invested in flawless baguettes  
Got my chain on, I thought I was wet

Flew back from space like a motherfuckin' martian  
Streets are at war, gotta sleep with that Carbon  
I crack a half of that lean, shit be icy  
Lambo' doors up when I pull up and park it

Hey  
Got some thots in my pit that I still haven't hit  
They ain't pressed about shit 'cause they wait on this dick  
New Gucci socks that match every outfit  
She still on the Plain Jane while you really rich  
That nigga yelling, "Gang, gang!", he ready to snitch  
I paint the coupe cocaine, I'm riding in a brick (Plu-Plug!)  
'Bout to go get it washed  
Icy two-tone AP watch  
Can't get my trust, you a fraud  
Young Gunna went against the odds  
Bought the Maybach a garage  
I can't use cash or a card  
Crown in that new Aventador  
VVS look like a star

Flew back from space like a motherfuckin' martian  
Streets are at war, gotta sleep with that Carbon  
I crack a half of that lean, shit be icy  
Lambo' doors up when I pull up and park it
