

Guns N' Roses, Silkworms

Listen motherfuckers to this song that should be heard
Thrown down in the gutter, its more than you deserve
Kneeling fucking virgin, you know that's what you are
Pussy for a maggot, isn't that a shock

What can I do? With a bitch like you
You know that its true
All I have I ask of you
I'll be dammed
If its not true
A bitch like you

Get your head down in the sky
Fucking little schemer got yourself a broken heart
Syphilitic preachers baby I know who you are
Parasitic demons sucking acid through your heart

What can I do? With a bitch like you
You know that its true
All I have I ask of you
I'll be dammed
If its not true
A bitch like you
