

Guns N' Wankers, Blah, Blah, Blah

didn't want it
but you got it
you got it now
and I know, it makes no difference to you now
far out of reach
just when you thought it's safe down on the beach again
another lie
cast aside
left to smoulder away
and I know, it makes no difference to you now
far out of reach
Just when you thought it's safe down on the beach again
it's there, the same old plastic fin
take a shot but they move the goalposts
look at you know, going through changes
black, grey, white, shifting stages
didn't want it
but you got it
you got it now
and I know, it makes no difference to you now
far out of reach
just when you thought it's safe down on the beach again you're wrong
