

# Gus Gus (GusGus), Ladyshave

Steam slowly builds up now  
Between my ears, there is fog now.  
The soothing sounds of your shower  
Make my life this hour.  
I guess I must have messed it up.  
I guess I must have messed it up.  
I guess I must have messed it up  
When I gave you the ladyshave.  
Your heart's a pumping bass and I like that.  
My heart is missing pace, and I like that.  
A ladyshave I can see now.  
A ladyshave now I know how.  
Now I know  
I guess I must have messed it up. (I guess you must have)  
I guess I must have messed it up. (I guess you must have)  
I guess I must have messed it up (I guess you must have)  
When I gave you the ladyshave.  
A lay, a lay, a lay, a ladyshave I can see now  
That to do, to do, to do the ladyshave needs a know-how.  
I guess I must have messed it up when I gave you the ladyshave.
