

# Guy Sebastian, Antidote - ft. Sam Fischer

Funny how I hate it when I'm here but  
Here I am again  
Like I was made to mend but mending  
Never seemed to make it end

Oh there you go  
Making it all make sense

It's funny how you find the words I've never found a way to say  
Find a way to make a masterpiece out of the mess I made

Oh there you go  
Making it all okay

You take the weight off my shoulder  
You make it safe to get older  
When I'm losing light  
When I'm tippin over  
You're where I go  
Whenever my feet miss the landing  
You take me from stumbling to dancin  
You're where I go  
When everything's broken  
My antidote

You've taken every part of me apart and put it back again  
And every place I've needed you's  
Exactly where you always been  
I can't remember living life before you  
Oh how I adore you  
Know everything would be in pieces if it weren't for you  
It's funny how I almost walked away  
From the very thing that saved me

In the hopeless  
In the lonely  
Ain't nobody that could know me like you know me  
From my brightest to my darkest hour

When I'm frozen  
In my weakness  
I don't ever have to wonder where my home is  
You're the brightest in my darkest hour  
My antidote
