

Guy Sebastian, How

How

How could he ever love you the way I could
Oh and how could he ever hold you the way i would
If you only knew
Each night what I go through
While my heart is breaking you're out making
Someone elses dream come true

Chorus

I gotta know how
How does it feel to be loved by you
I gotta know how
Just how it feels to be touched by you
I never said it before
But I cant take it anymore
I gotta know how
Just how it feels to be loved by you

I wanna live every way with you
Oh and i wanna die the same day as you
I tried to advertise
And tell you through my eyes
Girl I lost my pride so long ago
I even sang a song just to let you know

I gotta know how
How it feels to be loved by you

Girl you know i'll never treat you wrong
I'll be there for you
I can spend a lifetime in your arms
I'll be there for you
I'll be there for you babe

If only you knew
Each night what I go through
While my heart is breaking you're out making
Someone elses dreams come true

Chorus
