

Gym Class Heroes, Pillmatic

Pillmatic

Three Zani's down

I'm poundin' Honey Browns

I'm pillmatic

The OxyContin got my stomach rotten

Pillmatic I swear to God I'm not an addict

But I'm still at it

Goddamn it, I'm pillmatic

Thinking back on when it all started

I found pink hearts in mommy's little pocket book

And took 'em

Poppin' when she wasn't looking

I guess it runs in the family

I'm liable to eat any pill you randomly hand me

Save the greenery

I'm looking for them labels reading

"May cause drowsiness"

"Be careful when operating machinery"

Beautiful pharmaceuticals

Residue in my cuticles

Sniffin' them with a suitable

Wishin' they made 'em chewable

Catch me in the source with five pills next to my name

Like fuck five mics, I want five Vic fame

If killing pain is the name of the game

Then I'm your number one draft pick

Dash quick to the closest medicine cabinet

Kill the whole bottle

Never played the role model position

I'm just livin'

So take two of these and call me in the morning

I'ma take four and finish this 40 cause life's boring

Pillmatic

Three Zani's down

I'm poundin' Honey Browns

I'm pillmatic

The OxyContin got my stomach rotten

Pillmatic I swear to God I'm not an addict

But I'm still at it

Goddamn it, I'm pillmatic

Keep the hydro unless it's Codone behind it

Never have to roam far from home to find it

Writin' fake scripts like my doctor signed it

Till I spelled his last name wrong

This ain't a song for the kids like the last album

Put 'em to bed, go ahead and turn the Valium up

A couple meds to ease the pain of the papercuts

The doctor says slow down maybe later but

40 milligrams, a 40 and I'm faded

This world is crazy so I stay medicated

Percocet, Ativan, and Klonopin

When my social lights are out

They turn them on again

I'll eat 'em till I'm born again

OxyContin, orange juice and gin

Equals projectile wild style burner on a porcelain

Pillmatic

Three Zani's down

I'm poundin' Honey Browns

I'm pillmatic
The OxyContin got my stomach rotten
Pillmatic I swear to God I'm not an addict
But I'm still at it
Goddamn it, I'm pillmatic
