

Gyroscope, My Hands Are Tied

Bore you to no end
remembering
Glad you brought a friend
remembering
Scream for blue murder
sinking disorder
secretly watered down
Sleeping disorder
sea of new order
swim out until you drown
Crush your soul crushed with a splash of your alcohol
You are so gullible, gullible, gullible
Leave this up to me
definitely
Leave it all to me
defiantly
Scream for blue murder
take this new order
secretly watered down
Sleeping disorder
sea of new order
swim out until you drown
Crush your soul crushed with a splash of your alcohol
You are both gullible, gullible, gullible
Even though
I have been sent here to steal your soul
Bore you to no end
remembering
Glad you brought a friend
remembering
Crush your soul crushed with a splash of your alcohol
You are so gullible, gullible, gullible
You are so gullible, gullible, gullible
