GZA/Genius, Fam (Members Only)

(feat. Masta Killa, RZA)

[RZA]

Yo, yea check it...yo, yo yo yo

Yo, if you think you can fuck wit the Wu Clan

Get ya nose swolled up like Toucan

If you think you can fuck wit the Wu Clan

You get ya nose swolen up like Toucan

If you think you can fuck wit the wu clan

you get ya nose swolen up like Toucan

Sam, and we don't give a damn

Bullets soaked in oil so the Tec can't jam

Sippin on Carribean run, cocanut juice

Smokin on that chocolate stick

Open up two bottles of that brass monkey on some drunkie shit

You R&B fake rappers suck a monkey dick

I'm from back in the days

with the Christmas for haze

on my back, stripped out black

You like that?

Seven braids in my head

My girl stays in the bed and she love to lay the eggs

[Masta Killa]

Prepare for the mic onslaught swift with the sword

Slick Lord, holdin my weight homing abroad

The crowd roared for the peeps playing for the streets

I reeped and sewed, scriptures weeved and woved

Behold gold for the people equal

Fresh on the weekend

Wu-Tang, Biggie smalls live at the beacon

Backstage drinks on the house the show was bangin

Brothers Grey Goosin, Wu was Tanquerayin

Allah teaching schools in session

The Gods speakin

I'm just knowledging

Snake handshakes and fake hugs

Waiting for the hour to devour

and splatter ya heads of powder

I'm a slave to the rhythm

but never to a mental deaf and power

The hour has come

We got y'all eleven to one son

You done off, too late to break off

Tactics are hazardous to the health, bomb stealth

Rifle stay M-16, know what I mean?

Know what I mean?

[Break: Masta Killa (both)]

Ayo ayo

Great minds think alike

We used to drink all night

Think about things thats wrong and how to make it right lce cold bottles of brass, time flashes

A hundred blunts passes Before the God asked us

What's the square miles of the planet?

Why is the axis slanted?

How much is covered by water?

How much is granite? True-I-Master-Equality

God body be flowing like the chi energy inside your artery

Faithful as a polished rock against a tank

The force of my wheel still kill shooting blanks

Just from the sound alone ya heads blown

Still scorin in the red zone you best of head home

or get thrown to the dead zone

Son we need to ill, interupt the Grammy show and teach the kids

[Break: RZA]

Yo Just', what we stand for?

What we strive for?
What we live for?
What we give for?
What we die for?

I grew up around block parties ready to rock Behind a roll nigga wit my rhyme on cock First shot first nigga who had shit to pop My bad weather blew the feathers off a hundred flocks Seventy precent goose, thirty duck Get stuck if each link in ya chain is truck Can't come in this rhyme cypha wit nine snipers Charged off the juice from the pied pipers Walk around B-Boys, DJ's, MC's Through rap, never thinkin their ways of TV It was strictly all about about magnificent rhyme clout The R.E.C. Room, two dollars with the flyer, three without Now his wigs pushed back, name's removed off the plaque Too wild to reanact, with tax Thats the price to pay, my goal is to aim and spray My night is the same as day

[Chorus x2: RZA]
Yo Just', what we stand for?
