

H-Blockx, Discover My Soul

Look out for a better world - lost in time
Look out for a better world - lost my mind
Look out for a better world - look inside
Look out for a better world - take what's mine

Look out for a better world - see the light
Look out for a better world - shining bright

Coming out of nowhere coming out of me

Chorus:
This is the way to discover my soul, yeah
This is the way to discover my soul

Look out for a better world - meeting me
Look out for a better world - feeling free
Look out for a better world - make me see
Look out for a better world - all of me

Look out for a better world - see the light
Look out for a better world - shining bright

Coming out of nowhere coming out of me

Chorus
