

# H-Blockx, Even Goes

waking up late, it seems a little like always  
day is gray and nothing's right - psyche  
I close my eyes - I see the river runs blood red  
and the hourglass is dripping on the wrong side,  
I'm tripping on the wrong side - right

going blind

even goes and it shows it's just a fraction of it all  
even goes and I know that time will break my fall

getting up tired, and nothing's like always  
making my day - I'm going blind - psyche  
memories blurred yet I wanna start all new  
and I try to take a walk here on right side  
I'm walking on the bright side - right

going blind

even goes and it shows it's just a fraction of it all  
even goes and I know that time will break my fall

even goes

even goes

even goes and it shows it's just a fraction of it all  
even goes and I know that time will break my fall
