

H-Blockx, I Heard Him Cry

Feel insanity tonight
Lost with one long cry
Try to break the loneliness
No succesful try

Heard that cry a thousand times
Did not see the light
I didn't know him demanding
One last fatal try

Now I understand his lonely cry...

Chorus:
I heard him cry
I heard him cry but I didn't know
I heard him cry, I heard him cry...

Missed to say good bye that night,
Haunted by his cry
I never knew the reason why
I guess I just thought of 'I'

Words were drowned by rain or tears
Didn't know what he said
I try to recall the happy years
These minutes just leave me sad

Now I understand his lonely cry

Chorus
