

H-Blockx, Liquid Sunlight

fire shines through my liquid sunlight
thoughts of those I love hurt my head
and with another gulp I'll wash them
down to stop them spinning me around

I smell the scent of your bitterness so sweet
caress your body, caressing my need
the colours of gold that you show me
bleed into seas I never see when you leave me in

liquid sunlight...

timeless I walk on a tight rope
timeless I'd fall timeless I hope
senseless my wonders and liquid is my dope
but sense is no wonder so sunlights my hope

so shine on with me you crazy diamond
you cover what's real cause you are my friend
we'll stagger outside, are we on a, are we on a flight?
my liquid sunlight shining inside

liquid sunlight...

don't ask me why I'm flying so high man
don't ask me why I'm living a lie
ask me where and why am I laying
under the sun as the night is aside

liquid sunlight
