

H-Blockx, Paradise Valley

can't think straight my mind is covered with clouds
no doubt what I'm talking about;
I've never seen a place like this I miss no bliss
how could I ever forget how it feels, how it heals,
my wound, my blood, whatever pain my soul has got
these waters so clear
near and far all I can hear
rustle of leaves and insects hummin on trees

no place like this - no place like this
paradise valley

the sun reflects some billion glitters of water
direct in my face but I can't take my eyes of this place
so peaceful, beautiful, it flows all into one
meadows, mountains, I, the sky
so close I can never feel to gods own miracle
and then I see, I see that eagle fly

no place like this - no place like this
paradise valley
