H-Blockx, Paradise Valley

can't think straight my mind is covered with clouds no doubt what I'm talking about; I've never seen a place like this I miss no bliss how could I ever forget how it feels, how it heals, my wound, my blood, whatever pain my soul has got these waters so clear near and far all I can hear rustle of leaves and insects hummin on trees

no place like this - no place like this paradise valley

the sun reflects some billion glitters of water direct in my face but I can't take my eyes of this place so peaceful, beautiful, it flows all into one meadows, mountains, I, the sky so close I can never feel to gods own miracle and then I see, I see that eagle fly

no place like this - no place like this paradise valley
