

H-Blockx, Take Me Home

looking for them streetcaf
looking for that face, a night after a day
a day I made love to empty dreams
and nothing's like what it seems
nothing's like what it seems to be nomore

freedom's kissed by loneliness
somebody take away that emptiness
I layed on myself and...

chorus:
take me home tonight
take me on my own
take me all alone
just come and take me home
take me home tonight
take me on my own
take me all alone
just come and take me...
home

I've seen so many faces I
I've seen so many nights
nights without a trace
so I'm sitting in that streetcaf?
haven't found that face
the face that makes me say

freedom's kissed by sweet caress
nobody took away that emptiness
that I layed on myself so...

chorus

there's so much I felt but I can't explain
the urge of love remains, but all these easy faces change
still so much I feel but still I can't explain
am I the one to blame
I can't hold a face without a name nomore
it's up to me to... take me home tonight

take me home tonight
take me on my own
take me all alone
just come and take me home

just come and take me home
just come and take me home
take me all alone
just come and take me home
just come and take me home
