

# H-Blockx, Take Me Home

looking for them streetcaf  
looking for that face, a night after a day  
a day I made love to empty dreams  
and nothing's like what it seems  
nothing's like what it seems to be nomore

freedom's kissed by loneliness  
somebody take away that emptiness  
I layed on myself and...

chorus:  
take me home tonight  
take me on my own  
take me all alone  
just come and take me home  
take me home tonight  
take me on my own  
take me all alone  
just come and take me...  
home

I've seen so many faces I  
I've seen so many nights  
nights without a trace  
so I'm sitting in that streetcaf?  
haven't found that face  
the face that makes me say

freedom's kissed by sweet caress  
nobody took away that emptiness  
that I layed on myself so...

chorus

there's so much I felt but I can't explain  
the urge of love remains, but all these easy faces change  
still so much I feel but still I can't explain  
am I the one to blame  
I can't hold a face without a name nomore  
it's up to me to... take me home tonight

take me home tonight  
take me on my own  
take me all alone  
just come and take me home

just come and take me home  
just come and take me home  
take me all alone  
just come and take me home  
just come and take me home
